PROFESSIONAL EXPERIENCE

Tacton, Stockholm, Sweden | Nov 2020 - Oct 2024

Full-stack Software Developer

- Led several UX improvement initiatives for the cloud-based CPQ (Configure, Price, Quote) application that resulted in big Return of Investment and positive user sentiment.
- Collected and analysed user feedback using SQL to identify pain points and optimize the interface, leading to a 15% increase in user retention. Implemented the aforementioned UI improvements.
- Coordinated work with UX specialists and other stakeholders.
- Collaborated with product owners to define technical requirements and project scope.
- Used Java and JavaScript to architect, design, and implement scalable and performant features for the CPQ system.

Salt, Stockholm, Sweden | Apr 2020 - Jan 2022

Full-stack Software Developer

- Together with the team created a tutoring platform Eruditio aimed to facilitate real-time video calls between users using the WebRTC technology.
- Used NodeJS and Express for the backend, ReactJS for the frontend and MongoDB for the database. Later rewrote the project in TypeScript.
- Worked for a startup called Tappy to create the first version of their mobile app, using React Native.

Novare Potential, Stockholm, Sweden | Feb 2020 - Apr 2020

Project Assistant

- Supported the coordination of the Software Development Academy, focusing on helping students build their career profiles and CVs.
- Guided students through technical challenges and facilitated workshops on communication and teamwork.
- Assisted in analyzing student progress and training effectiveness, optimizing course design based on performance metrics.

PROFI.RU, Moscow, Russia | May 2009 – Aug 2019
